

Daily Scrum Meeting Minutes:

Attendees: Zainab Akhtar, Michael Alvarez, Javier Espinosa, Joseph Avalos

Start time: 6:00 PM

End time: 6:15 PM

Zainab Akhtar:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done since the last scrum meeting?
 - Finalized the diagram so it can be added into the documents. Used the feedback that I got from the team to make the onboarding and onboarding flow clearer and verified that everything aligned with the requirements.
- What is planned to be done until the next scrum meeting?
 - Add the diagram to the documentation and then start to start an explanation that describes the major components in the diagram and their roles.
- What are the hurdles?
 - Keeping the architecture of the diagram not overly complex

Michael Alvarez:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done since the last scrum meeting?
 - After getting feedback from my group I finalized the requirement table. I also mapped out each requirement as either being for onboarding or onboarding and linked each to their own system component.
- What is planned to be done until the next scrum meeting?
 - Go over the requirements table to ensure consistency and clarity.
- What are the hurdles?
 - Making sure that all requirements aren't redundant.

Javier Espinosa:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done since the last scrum meeting?
 - Confirmed with the group the final parts of the control tool and identity management section. Wrote down the reasons for my decision including limitations and key features.
- What is planned to be done until the next scrum meeting?
 - Include the technical details about the tools I selected which would support the procedure section.
- What are the hurdles?
 - Balancing the scope of the project with the technical depth.

Joseph Avalos:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done since the last scrum meeting?
 - Refined the admin procedures and configuration based on the final tool that was selected. Fixed some terminology on the section.
- What is planned to be done until the next scrum meeting?
 - Continue to format the documentations for readability and consistency, ensuring everything looks clear, simple and easy to understand.
- What are the hurdles?
 - Waiting on the other parts such as tools and diagrams to be finalized in order to finish my part.hello
