

Daily Scrum Meeting Minutes:

Attendees: Zainab Akhtar, Michael Alvarez, Javier Espinosa, Joseph Avalos, Bryan Rivero

Start time: 6:25 PM

End time: 6:50 PM

Zainab Akhtar:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done day since the last scrum meeting?
 - Finalized the model lifecycle of user access ensuring that all of the process stages such as permission updates, account creation, authentication and deactivation were listed out and met the properties of RBAC. Confirmed there is logical flow between sections.
- What is planned to be done until the next scrum meeting?
 - Start to integrate the model lifecycle of user access into the documentation making sure it goes with the framework.
- What are the hurdles?
 - Making sure the lifecycle integrates with the other systems without being redundant.

Michael Alvarez:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done since the last scrum meeting?
 - Finalized the workflow of incident response by defining each of the sections from resolution all the back way to detection, even adding in escalation parts.
- What is planned to be done until the next scrum meeting?
 - Start to match the workflow of incident response with the framework making sure both are connected easily.
- What are the hurdles?
 - Ensuring everything is detailed and flows easily.

Javier Espinosa:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done since the last scrum meeting?
 - Finalized the framework security policy ensuring that all the sections are organized such as administrative access, system usage, and operational procedures.
- What is planned to be done until the next scrum meeting?
 - Start to integrate the framework policy into the documentation making sure its compliant with the security components.
- What are the hurdles?

- Avoiding overlap with other sections.

Joseph Avalos:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done since the last scrum meeting?
 - Finalized the framework for security making sure it defines the alert triggered, logging events, and also connects with the workflow of incident response.
- What is planned to be done until the next scrum meeting?
 - Review and go over the integration in between sections making sure everything is smooth.
- What are the hurdles?
 - Making sure all the scenarios are easy to follow.

Bryan Rivero:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done since the last scrum meeting?
 - Finalized the implementation of the security control and also continued to organize the documentation making sure all the sections are included.
- What is planned to be done until the next scrum meeting?
 - Complete the package by getting it ready for review.
- What are the hurdles?
 - Making sure everything is consistent in terminology.
