

Daily Scrum Meeting Minutes:

Attendees: Zainab Akhtar, Michael Alvarez, Javier Espinosa, Joseph Avalos, Bryan Rivero

Start time: 7:05 PM

End time: 7:30 PM

Zainab Akhtar:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done day since the last scrum meeting?
 - Started to draft out the plan for recovery for the system reliance by defining failure scenarios, backup strategies and recovery procedures. Connected the steps for recovery with the lifecycle for user access to make sure there is continuity of access beyond failures.
- What is planned to be done until the next scrum meeting?
 - Continue to refine the recovery plan by adding in more details about timeline.
- What are the hurdles?
 - Making sure the plan aligns with the security controls without issues.

Michael Alvarez:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done since the last scrum meeting?
 - Started to outline the plan for data protection by listing out the categories which store sensitive data and finding how that data should be protected and stored using encryption and restrictions.
- What is planned to be done until the next scrum meeting?
 - Further refine the plan by adding more details about encryption.
- What are the hurdles?
 - Ensuring that the methods go with the architecture which is listed.

Javier Espinosa:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done since the last scrum meeting?
 - Continued to develop the framework for security policy and added in more polices regarding the system recovery and data protection.
- What is planned to be done until the next scrum meeting?
 - Refine what policies and align them with the resilience strategy and data protection.
- What are the hurdles?
 - Staying away from overlap within policies.

Joseph Avalos:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done since the last scrum meeting?
 - Started to align the recovery scenarios with the framework for security monitoring by listing how the logs and alerts would help the trigger and detection actions for recovery.
- What is planned to be done until the next scrum meeting?
 - Further align the monitoring and discuss how it integrated with system recovery workflow and incident response.
- What are the hurdles?
 - Making sure that everything in scenarios are realistic.

Bryan Rivero:

- How many hours did I work since the last meeting?
 - 1.5 hour
- What was done since the last scrum meeting?
 - Continued to remind the package of documentation by adding in new parts synch as monitoring, lifecycle and response. Further added the implementation of security controls.
- What is planned to be done until the next scrum meeting?
 - Add in the resilience sections and data protection sections into the package and further refine it for overview.
- What are the hurdles?
 - Making sure all of the sections are consistent as many new sections are being added.
