

Daily Scrum Meeting Minutes:

Attendees: Zainab Akhtar, Michael Alvarez, Javier Espinosa, Joseph Avalos

Start time: 6:00 PM

End time: 6:30 PM

Zainab Akhtar:

- How many hours did I work since the last meeting?
 - 1 hour
- What was done since the last scrum meeting?
 - Started drafting the high-level system architecture diagram for the offboarding and onboarding platform. The diagram includes components like interactions between access control, identity management and endpoint provisioning.
- What is planned to be done until the next scrum meeting?
 - Continue to refine the architecture diagram and add in details of integration for endpoint and identity management. Also start identifying the potential security considerations that would be needed for each module.
- What are the hurdles?
 - Clarity is needed on how certain endpoints will be integrated into the identity management system.

Michael Alvarez:

- How many hours did I work since the last meeting?
 - 1 hour
- What was done since the last scrum meeting?
 - Began to define the requirements and system scope for the onboarding and offboarding system. These include the permission assignments and access to shared resources.
- What is planned to be done until the next scrum meeting?
 - Finalize the full list of requirements for the document and share them with the team for feedback
- What are the hurdles?
 - Making sure that all the requirements are capturing the scenarios for different roles of employees.

Javier Espinosa:

- How many hours did I work since the last meeting?
 - 1 hour
- What was done since the last scrum meeting?
 - Research was done of secure technologies and tools such as identity management, secure tools, and access control solutions.
- What is planned to be done until the next scrum meeting?
 - Recommend the team specific technologies and create notes comparing them so its easier for the team to decide.

- What are the hurdles?
 - Determining which of the tools would work best for our planned architecture and is compatible.

Joseph Avalos:

- How many hours did I work since the last meeting?
 - 1 hour
- What was done since the last scrum meeting?
 - Started to create the initial documentation for configuration, deployment and admin procedures.
- What is planned to be done until the next scrum meeting?
 - Outline the sections for configuration and admin guides as well as organize documentation templates.
- What are the hurdles?
 - Need to confirm with the rest of the team on which technologies we will be using before finalizing the structure of the documentation.
